

Alaska Department of Transportation & Public Facilities  
**HSIP: Chena Small Tracts Roundabout**  
*Public Open House, Tuesday, November 7, 4:30-7 p.m.*

### WHAT ARE WE DOING?

The Alaska Department of Transportation and Public Facilities (DOT&PF) is designing a roundabout at the intersection of Chena Pump Road, Chena Small Tracts Road, and Old Chena Ridge Road. We started examining conditions at this intersection after receiving complaints about wait times from residents. Wait times have become long enough that we expect more people to make riskier maneuvers to enter or cross Chena Pump Road. The intent of the roundabout is to improve safety at this intersection.
